Objectives and investment policy

The objective of Arabesque Q3.17 SICAV - Global ESG Momentum Flexible Allocation ("Sub-Fund") is long-term capital appreciation through investments into a sustainable Sharia-compliant equity universe (Arabesque Investment Universe) and cash instruments. The Arabesque Investment Universe is determined on a quarterly basis.

The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is the MSCI ACWI Index. It is used for performance comparison purposes.

As a general rule, past results offer no guarantee of future performance. There can be no guarantee that the Sub-Fund's objectives will be achieved.

The Arabesque Investment Universe contains Sharia-compliant equities and equity-related securities (equity securities) from companies worldwide that have passed a systematic selection process. The ESG assessment utilizes a Best in Class approach per sector to exclude companies with inferior scores. Companies that are in breach of the principles of UN Global Compact (human rights, labour rights, anti-corruption, environment) are excluded as well. The Arabesque Investment Universe is furthermore screened by liquidity parameters such as market capitalization, daily turnover and free float.

The ESG assessment utilizes a Best in Class approach per sector to exclude companies with inferior scores. Companies that are in breach of the principles of UN Global Compact (human rights, labour rights, anti-corruption, environment) are excluded as well.

However, depending on financial market conditions, a particular focus can be placed in a single country and/or in a single economic sector and/or in a single currency.

Under normal market conditions, the maximum position size of any single stock should be 1% of the market value of the Sub-Fund's net assets, without being a constraint.
